improved food safety
compliance

Team Empowerment

Automation eliminated
manual tasks; seamless
driver communication

"Here at the Springfield, Ohio transportation center, we're proud that we get to be a large part of the Bob Evans Farms total picture. With our 100 drivers, we're able to successfully deliver about 20,000 deliveries a year and we can do that more efficiently with the help of Kaleris' YMS on site." — Jake Thomas, Sr. Manager of Fleet & Transportation
