

#### WINS WITH KALERIS YMS

A premier temperature-controlled logistics provider for food & beverage — operating near major ports with end-to-end cold chain solutions requiring real-time yard precision.

## 19%

### Productivity Increase

#### Fewer Yard Trucks

Fleet reduced from 10 to 7 — spotter efficiency dramatically improved

## 30%

### OpEx Reduction

#### Cost Savings

Eliminated manual yard checks; reduced detention and demurrage charges

## 9mo

### Payback Period

#### Easy Integration

Smoothly connected with existing TMS and WMS — no major Wi-Fi overhaul needed

*"Having instant visibility into container locations will boost our operating efficiencies, help reduce errors, risk & exposure, and will allow customers to have a clear window into our operations."* — Jamie Overley, CEO
